(2) To the Excise Section for needful action as per Asst Secy's note d 2-10-23 above.

6/10/23 (3) The fall in shop rental is due to the fact that ~~in the assessment~~ the licensees offered less shop-rent at the Excise sales than in the previous year, the decline in the bids offered was about Rs 2,40,000.

In other words less revenue was realized because the amount due by the licensees was also less than in previous years. A draft letter to the Excise Comr. requesting him to explain the cause of declining is however put up.

larger gross revenue & less smaller working expenses 7E Secy) 16/10/23

3.1) With the information furnished in the Revenue Statistics for September 1923, a general review of our revenue position in the first quarter may be made.

3.2) Land Revenue.- The collection this year is Rs.4.67 lakhs against Rs.4.87 lakhs in last year. The c nt year's budget is about Rs.3.00 lakhs less than that of last year and in view of this fact, the collections to end of September 1923 may be considered as satisfactory. The agricultural conditions in some parts of the State not being favourable, it is probable ~~possible~~ that the collection in the Khist season may be adversely affected to some extent.

3.3) Forest.- The collection in the current year is Rs.7.71 lakhs against Rs. 2.75 lakhs in the last year. The wide difference is apparently due to the treatment as Forest revenue, of the gross sale proceeds of sandal oil. This procedure is incorrect and misleading. The Comptroller will be asked to split up the Forest head into two parts: (1) sandal wood and (2) other items of revenue. For the former, he should give particulars of gross receipts and working expenses. There should, therefore, be two statements for reporting

1)

NOTE—Contn. sheet.

Serial No.

the revenue statistics of the head 'Forest'.

34) Excise.- The collection in the current year is Rs.16.~~24~~ 42 lakhs against Rs.16.63 lakhs in the last year. The Budget estimate ~~is~~ of gross collections is about the same as the actuals of last year -- about Rs. 74.00 lakhs -- and the decrease of Rs.21,000 in the first quarter is an unfavourable feature. The Excise Commissioner has been addressed as regards the falling off observed in the collection of the first two months, and on receipt of his explanation, the declining tendency of this item of revenue will have to be investigated and ~~such~~ remedial actions taken to see that the Budget anticipation is realised.

2) not issued - K Revenue draft is put up now for issue

35) Income-tax.- The collection in the current year is Rs.2.81 lakhs against Rs.1.82 lakhs in the last year. If these figures relate only to Income-tax, the collection in the first quarter is satisfactory as the Budget of Income-tax alone for the current year is Rs.12.88 lakhs against Rs.13.38 lakhs realised last year. The item of Super-tax is about Rs.5.00 lakhs and collections against this demand have also to be carefully watched. The Comptroller will therefore be requested to show the Income-tax and Super-tax items separately and send separate returns regarding them.

3)

36) Stamps.- The collection in the current year is Rs.4.84 lakhs against Rs.4.30 lakhs last year. The Budget

NOTE—Contn. sheet.

Serial No.

estimate is one lakh more than the realisation of last year and the excess of Rs.54,000 in the first quarter indicates that the additional revenue anticipated under this head is likely to be realised. If the growth continues at the rate shown by the first quarter's collection, there may be a small increase over the Budget anticipation.

37) Mining Revenue.- The collection in the current year is Rs.3.27 lakhs against Rs.3.45 lakhs in the last year The Budget estimate is about a lakh and a half less than the last Year's Revised and the small decrease in the first quarter of this year, compared with that of last year, may not therefore affect the realisation of the Budget anticipation. But, considering the pregailing value of gold, there should be some improvement over the Budget expectation unless there is decrease in production or delay in payment of royalty. These points require investigation and will be taken up with the Comptroller.

4)

38) Railway Revenue.- The gross revenue in the first quarter of this year is Rs.5.47 lakhs against Rs.6.49 lakhs last year. There is thus a deterioration of about one lakh and the causes of this worseness require to be enquired into. The working expenses are Rs.4.53 lakhs against Rs.5.36 lakhs. The level of Rs.4.53 lakhs is very much below that reached since 1920-21 and this leads

992/375

14

General and Revenue Secretariat. | C. A File No. 4 of 1923.

Serial No.

leads to the suspicion that all the adjustment charges may not be included in the working expenses. Delay in the adjustment of these charges results in apparently increased net receipts which are incorrect and misleading. These points will be taken up with the Railway Auditor.

5)

39)

Electrical Revenue.- The collection in the current year is Rs.9.99 lakhs against Rs.9.20 lakhs in the last year, showing an improvement of Rs.79,000 in the first quarter. The current year's estimate is Rs.2.00 lakhs more than last year's realisation and the improvement of Rs.79,000 in the first quarter shows that the Budget anticipation is likely to be realised. Under working expenses. the figure shown is Rs.1.81 lakhs against Rs.2.46 lakhs in the previous year. The difference is as large as Rs. Rs.65,000 and the causes of this reduction will be investigated in communication with the Comptroller and the Chief Electrical Engineer.

Sir,

In the Revenue Statistics for September 1923 received from the Comptroller it is observed that the collection to end Sept 23 for the corresponding period of last year is Rs 16.42 against 16.63 lakhs, a decrease of Rs 21,000 in the first quarter is an unfavourable feature.

I am directed to request you to explain the cause of the decline of revenue at an early date.

SIR,

Adverting to your letter No.R.1506/L.R.20-23-3 dated 28th September 1923, requesting me to explain why there has been a fall in the collections during July and August 1923 as compared with the corresponding period of the previous year, I have the honour to state that reports have been received from the Deputy Commissioners of all Districts except Kolar and Shimoga. These show that there was no fall in collections during the two months in the Districts of Bangalore, Kadur and Chitaldrug, but that on the other hand, there was an increase as noted in the margin. The Deputy Commissioner, Hassan explains that there was a slight fall of Rs.727-12-0 in the collection for the period and that this was due to the fluctuating demand under sale proceeds of Government lands which fell from Rs.23,817-15-8 in 1922 to only 13,680-2-8 in 1923. With regard to Tumkur District, the Deputy Commissioner states that there has been a fall of Rs.9,632-10-5 for the period in collections and explains this as due to the comparatively large arrears outstanding on 1st July 1922 as noted in the margin. The Deputy Commissioner, Mysore, in whose District there has been a fall

of Rs.31,478/- assigns also a similar reason and adds that the demand for the two months was also heavier in 1922 than in 1923 as detailed in the margin. In my reviews on the monthly Demand Collection and Balance returns of the Districts, I have requested the Deputy Commissioners to instruct the Amildars to be more brisk in collection work and it is hoped that the collections would be better in the coming months.

~~It is stated~~ I am directed ~~that~~ to state that the Inspector Mining Revenue the collection in the current year is Rs 3·27 lakhs against Rs 3·45 lakhs in the last year. The Budget estimate is about a lakh & half less than the last year's revised & the small decrease in the first quarter of this year compared with that of last year may not therefore affect the realization of the Budget anticipation: But, considering the prevailing Value of Gold there should be some improvement over the Budget expectation unless there is decrease in production or delay in payment of Royalty.

Sir,

~~I am directed to state~~ In the Rev: Statistics for Sept-23 the Gross Revenue in the first quarter of this year under Railways is Rs 5.49 lakhs against Rs 6.49 lakhs last year. There is thus a deviation of about 1 lakh & the causes of this variation require ~~to be~~ some explanation. The working expenses are Rs 4.53 lakhs against Rs 5.36 lakhs. The level of Rs 4.53 lakhs is very much below that reached since 1920-21 & this leads to the suspicion that all the adjustment charges may not be included in the working expenditure. Delay in the adjustment of these charges results in artificially increased

Sir,

REVENUE STATISTICS FOR SEPTEMBER 1923.

Adverting to your No.Fl.3471/C.A.4-23, dated 27-12-23, I have the honour to state that the working expenses for the first quarter of each of the years 1922-23, 1923-24, as actually booked in this office are as follows:-

1.	July 22 to September 22.	.....	Rs.1,98,493.
2.	July 23 to September 23.	.....	Rs.1,72,855.

It will thus be seen that the actual decrease in expenditure during the first quarter of the present year is about 26,000 and this is mainly due to the difference between the value of materials issued under Generation for maintenance of Plant during the first quarter of the present and the last years. The exact reason for this difference has today been called for from the General Superintendent, and will be communicated to you soon after receipt.

There were two burn outs of transformers at Sivasamudram, one in the latter part of May 22 and the other in July 23, and the excess issue is probably due to these burn outs.

Sir,

With reference to your letter No. Fl.8470/C.A.4-23 dated the 27th December 1923, re the reduction of expenditure under "Cauvery Power Scheme - Working Expenses" during the quarter ending September 1923, as compared with the corresponding quarter of last year, I have the honor to state that the large difference of Rs.65,000/- is due partly to the heavy issues of materials for works during the ~~past~~ first quarter of 1922-23 as explained in the Chief Electrical Engineer's letter No. 4633 dated 17th January 1924 (copy enclosed) and partly to the royalty payable to

Madras Government for 1922-23 amounting to Rs.54,216/- having been adjusted in the June (final) accounts of that year itself, instead of in the beginning of the subsequent year as was being done before.

Letter No. 4633 dated 17th January 1924 from the Chief Electrical Engineer, Mysore Government, to the Comptroller Mysore Government, Bangalore.

WORKING EXPENSES UNDER GENERATION FOR THE QUARTER ENDED SEPTEMBER 1923.

With reference to your letter of the 11th January 1924, I have the honor to state that the working expenses under Generation for the 1st, quarter in 1922-23 is more than the working expenses for the first quarter in 1923-24 on account of difference in value of materials issued under maintenance of Plant in July 1922, August 1922, and September 1922, to the extent of Rs.18,159/-, 9,688/- and 7,509/- respectively. This accounts mainly for the reduction of expenditure in the first quarter of 1923-24 and the exact reason for the difference has to-day been called for from the General Superintendent, Generating Stations, Sivasamudram, and will be communicated to you on receipt.

Sir,

Adverting to your letter No.R.1506/L.R.20-23-3 dated 28th September 1923 and in continuation of my letter No.C.Per.8.3 dated 21st/24th December 1923 regarding the fall in collections during July and August 1923, as compared with the corresponding period of the previous year, I have the honour to state that the reports of the remaining Deputy Commissioners viz. of Kolar and Shimoga District have since been received. The Deputy Commissioner, Kolar District, states, that the collections in his District up to the end of August 1923 amount to Rs.46,817 as against Rs 48,313 in the previous year according to the Treasury figures, that out of Rs 48,313 a sum of Rs 3500 in respect of ~~xxxxxxx~~ Kolar Taluk related to the year 1921-22; that it had been collected on the last working day of June 1922 but credited in the District Treasury on the 1st working day of July 1922 there being no regular Treasury in the Kolar Taluk then, that excluding this amount the net amount in respect of the previous year is only Rs 44,813 as against Rs 46,817 in the current year and hence that the shortage noticed is not due to any fall in the collections of the District. The Deputy Commissioner, Shimoga has reported that the fall in collections in his District during the period was Rs 2,607 which is mainly due to the corresponding fall in arrears at the begining of the year. The explanations offered may be accepted.
